

# International Course and Field Seminar Characterization and Engineering of Karst Aquifers

Trebinje, Bosnia & Herzegovina

June 1 - 7, 2015

The second international course and field seminar *Characterization and Engineering of Karst Aquifers* will take place in Trebinje, Bosnia & Herzegovina, between 1-7 June, 2015.

The course is organized by the Centre for Karst Hydrogeology of the Department of Hydrogeology, University of Belgrade, Faculty of Mining and Geology and the Geological Survey of the Republic of Srpska, Zvornik (Bosnia & Herzegovina).

More info available at: [www.karst.edu.rs](http://www.karst.edu.rs)

## About the Course

The course is developed primarily for graduate students and students in senior years of undergraduate studies in geology, environmental sciences, and engineering that are interested in the research of karst environments and in the development and engineering of karst water resources.

The course is certified by the University of Belgrade as one of the regular courses of the MS Program of the Department of Hydrogeology. Its value is 6 ECTS.
